24   _____

25   HIGHLY CONFIDENTIAL - ATTORNEYS' EYES ONLY

1

10:13 1   have reflected the corporate structure of the

10:13 2   company.

10:13 3   A.   Correct.

10:13 4   Q.   Do you have any documents that

10:13 5   reflect the employees and their roles?

10:13 6   A.   Yeah.

10:13 7   Q.   And what type of documents are

10:13 8   those?

10:13 9   A.   Those would be standard employment

10:13 10   contracts, and NDAs, and standard proprietary

10:13 11   invention agreements.

10:13 12   Q.   Do you have any document that,

10:13 13   like, provides a table of the roles of the

10:13 14   employees and who their supervisors are?

10:13 15   A.   I could -- I would -- I could find

10:13 16   that.

10:13 17   Q.   Is power.com still operating?

10:13 18   A.   The company is still operational.

10:13 19   Q.   How many employees are there

10:13 20   currently?

10:13 21   A.   There are currently no -- no

10:13 22   employees for the company.

10:13 23   Q.   Are you the sole --

10:14 24   A.   I'm the sole person at the company

10:14 25   right now.

25

BARKLEY
Court Reporters

10:15	1	A.	No.
10:15	2	Q.	Did it formerly?
10:15	3	A.	Yes, did it.
10:15	4	Q.	Where did it formerly operate out

10:15   5   of?

10:15   6   A.   It was based in -- in the city of

10:15   7   Rio de Janeiro was the primary offices, and there

10:15   8   was secondary offices we had in Salvador. It's in

10:15   9   Brazil, also.

10:15 10   Q.   Is that a short name for it --

10:15 11   A.   No. It's the city.

10:15 12   Q.   And where was the company -- Where

10:15 13   is the company incorporated?

10:15 14   A.   It's incorporated in Cayman

10:15 15   Islands and in the United States.

10:15 16   Q.   Where in the US?

10:15 17   A.   Delaware.

10:15 18   Q.   Do you pay a Delaware franchise

10:16 19   tax annually?

10:16 20   A.   Yes, we do.

10:16 21   Q.   Pay any type of franchise tax in

10:16 22   the Cayman Islands?

10:16 23   A.   Yeah. There are -- There are

10:16 24   taxes paid. Correct.

10:16 25   Q.   From where is the revenue

<center>27</center>

11:03 1   two forms, either it was done through E mail or

11:03 2   there would be text documents that would -- that

11:03 3   would -- If in some products there would be -- that

11:03 4   required more definition, there would be more

11:03 5   formal requirement documents that would be in the

11:03 6   form of a text form. That's correct.

11:03 7   Q.   All right. So some of the

11:03 8   development and functionality was described in

11:03 9   internal E mails amongst the employees?

11:03 10   A.   Correct.

11:03 11   Q.   Is that -- Are those E mails

11:03 12   indexed anywhere?

11:03 13   A.   Typically when -- during the

11:03 14   declarations, I went through every E mail that

11:03 15   related to Facebook and I believe all those were

11:03 16   provided to -- in the declarations, provided to our

11:03 17   lawyer.

11:03 18   Q.   I understand we'll get to the

11:04 19   product issues, but all I'm asking about are all

11:04 20   the E mails that were ever generated describing the

11:04 21   functionality of PowerScript, are they maintained

11:04 22   anywhere anymore?

11:04 23   A.   They are maintained I would -- in

11:04 24   my E mailbox.

11:04 25   Q.   Would -- What E mail service was

61

BARKLEY
Court Reporters

11:04 1   used internally at power.com for -- for discussions

11:04 2   amongst employees?

11:04 3   A.   It was -- Well, our -- on Power

11:04 4   domain but it would be so it would on -- on the

11:04 5   servers.

11:04 6   Q.   For instance, did you use Outlook?

11:04 7   A.   Yes. Some people used Outlook,

11:04 8   some people used different services, but Outlook

11:04 9   was the primary -- primary service. Each

11:04 10 individual had their own E mail platform. For

11:04 11 example, I used Web-based E mail where I received

11:04 12 everything in my Yahoo E mail.

11:04 13   Q.   Were the E mails sent intra--

11:04 14 intra, I-N-T-R-A company so that they only went to

11:04 15 other employees in the company?

11:04 16   A.   They would go to -- It was not --

11:05 17 It would go to whoever was copied on the E mail.

11:05 18   Q.   Were those E mails backed up

11:05 19 anywhere?

11:05 20   A.   I believe they were backed up on

11:05 21 our servers.

11:05 22   Q.   Okay. And those are the servers

11:05 23 that were hosted by IWEB and Amazon.com.

11:05 24   A.   That's correct.

11:05 25   Q.   And is that backup information

62

11:05 1   still available to you through your site that

11:05 2   you're currently hosting on a monthly basis?

11:05 3   A.   Everything was instructed to be

11:05 4   copied there, and so I'm assuming that it's all

11:05 5   there. I haven't looked at it individually

11:05 6   personally, but I made a backup of everything.

11:05 7   Q.   Now, you also said some

11:05 8   documentation relating to coding was maintained in

11:05 9   text form?

11:05 10   A.   Yes. Some products -- Some

11:05 11   products -- Text form meaning an electronic file.

11:05 12   If -- If a product required -- Usually, in the

11:05 13   early stages of a -- of a product, later on, as it

11:05 14   evolved, a lot was done informally by E mails.

11:05 15   Q.   And those text files are they also

11:06 16   still available to you?

11:06 17   A.   They would be in my E mailbox if

11:06 18   they -- if they're available.

11:06 19   MR. COOPER: I can do this one of

11:06 20   two ways. The Northern District typically --

11:06 21   there's a rule that says we're to try and do depo

11:06 22   exhibits consecutively. I believe the last one

11:06 23   ended on six. We can start at seven. However, if

11:06 24   there's any concern about confusion with that, I

11:06 25   often just start, like, say at 100 so we'd have

                              63

STEVEN VACHANI- HIGHLY CONFIDENTIAL, AEO

BARKLEY
Court Reporters

01:30 1   where the conversations on those existed, but yes.

01:30 2   There are specific scripts like Get photo that, you

01:30 3   know, that are -- that are -- that we've discussed

01:30 4   and talked about and that are available. I mean,

01:30 5   if you want to prove that we were -- we were

01:30 6   getting photos or getting contents, I think we've

01:30 7   said it many times that we are -- that's what our

01:30 8   -- that's what our users are asking us to do to

01:30 9   access their information.

01:31 10   Q.   All right. But that code was not

01:31 11 produced by you. Correct?

01:31 12   MR. BURSOR: We would stipulate

01:31 13 the source code has not been produced.

01:31 14   A.   Yeah, we've already stipulated

01:31 15 it's not been produced.

01:31 16   Q.   Nor -- And the only technical

01:31 17 documentation you suggest was developed in

01:31 18 conjunction with that source code are the two

01:31 19 documents I put in front of you, 100 and 101?

01:31 20   A.   This is the foundation of how

01:31 21 every PowerScript is created.

01:31 22   Q.   Right. And you indicated there

01:31 23 were 100 employees at Power at the height of its --

01:31 24   A.   That's correct. Yes.

01:31 25   Q.   -- operation?

                                134

BARKLEY
Court Reporters

03:44 1   other priorities obviously before that.

03:44 2   Q.   At any time, do you recall Power

03:44 3   expending revenue for marketing surveys to see what

03:44 4   -- what features that users of the Power site might

03:45 5   like?

03:45 6   A.   No, we didn't. We already -- We

03:45 7   -- We didn't spend money to do marketing surveys.

03:45 8   We looked -- We had a lot of -- We had enough data

03:45 9   from our current users of what was working and we

03:45 10   looked at the sites. We didn't really get to that

03:45 11   point. We turned on just a basic test of Facebook,

03:45 12   as I said, for a few weeks. We didn't even get to

03:45 13   that point where they had -- were able to implement

03:45 14   all the next generation of features.

03:45 15   Q.   Do you have a recollection how

03:45 16   fast after its creation Power got to 100 employees?

03:45 17   A.   Yeah. In about one year. There

03:45 18   were about a hundred employees grown in a year. In

03:45 19   the year of 2007 from the -- basically from the

03:45 20   beginning to the end, essentially we grew to -- we

03:45 21   added about a hundred employees.

03:45 22   Q.   At the time Facebook launched, did

03:45 23   you still have about 100 employees?

03:45 24   A.   When Facebook launched we had

03:45 25   about 100 employees. That's correct.

                              232

BARKLEY
Court Reporters

04:39 1   on the top of Exhibit Number 106?

04:39 2   A.   Yes.

04:39 3   Q.   Do you see it's January 13, 2009?

04:39 4   A.   Yes.

04:39 5   Q.   As of January 13, 2009, did Power

04:39 6   still have the ability to locate a script that was

04:39 7   used in conjunction with the launch promotion?

04:39 8   A.   If it existed, yes.

04:39 9   Q.   Do you know if at any time Power

04:39 10   had in place what is known as a litigation hold

04:39 11   instructing employees not to destroy documents

04:39 12   after this case was filed?

04:39 13   A.   We never -- We didn't destroy any

04:39 14   documents after that -- anything -- destroy

04:39 15   anything after this case started.

04:39 16   Q.   Then does that mean the

04:39 17   PowerScript should still exist?

04:39 18   A.   What I know is PowerScripts are

04:39 19   dynamic script's that are constantly updated, so I

04:40 20   don't know what exists for this.

04:40 21   Q.   If you go back to Exhibit 106 --

04:40 22   First of all, was any instruction ever given to

04:40 23   employees not to destroy any documentation relating

04:40 24   to the Facebook program?

04:40 25   A.   Not to -- We don't -- It's not our

                                    271

BARKLEY
Court Reporters

04:40 1   standard practice to destroy anything, so there's

04:40 2   not -- Since we don't actively destroy something,

04:40 3   there's no need to tell them not to destroy it. We

04:40 4   don't have any policy for destroying -- destroying

04:40 5   our documents.

04:40 6   Q.   And that includes your

04:40 7   PowerScripts?

04:40 8   A.   Well, PowerScripts, I believe, are

04:40 9   dynamic things. There was no policy saying change

04:40 10   -- preserve an earlier version of that. I don't

04:40 11   know how the -- The PowerScripts are like HTML

04:40 12   changes. They're very similar to making an HTML

04:40 13   change.

04:40 14   Q.   Do you know when the promotion

04:40 15   shown on Exhibit 103 exist -- when it lasted from?

04:41 16   A.   That lasted from December of 2008

04:41 17   -- Was that eight? Yes. December of 2008 until

04:41 18   2000 -- I guess -- like the -- January -- Well,

04:41 19   Facebook -- It lasted well beyond Facebook, so it

04:41 20   probably lasted until about March or April, but

04:41 21   Facebook was only alive for four weeks, five weeks.

04:41 22   Q.   I'm sorry. At that time in that

04:41 23   timeframe is when Power was sued by Facebook.

04:41 24   Correct?

04:41 25   A.   That's correct.

05:07 1   with PowerScript or I searched with the word

05:08 2   "Facebook." Specifically, relating to this issue

05:08 3   as I told you earlier, I went through -- Actually,

05:08 4   I went through all the E mail also of that time

05:08 5   period, and I also searched the word "Facebook." I

05:08 6   also searched the word "PowerScript" and I also

05:08 7   searched a range of other terms that I thought were

05:08 8   related to this issue.

05:08 9   Q.   You indicated nobody -- that it

05:08 10 was not the policy to destroy documents at -- at

05:08 11 Power.

05:08 12   A.   That's correct.

05:08 13   Q.   Where were those documents stored?

05:08 14   A.   Any document that was sent

05:08 15 electronically is still in my E mailbox.

05:08 16   Q.   What if it wasn't sent

05:08 17 electronically?

05:08 18   A.   If it wasn't sent electronically,

05:08 19 -- There's -- I don't know which -- They're -- For

05:08 20 the most part, I would say most of our

05:08 21 communications were sent electronically, but if

05:08 22 somebody prepared, for example, a -- a Word

05:08 23 document and never sent it out to anyone, which I

05:08 24 don't think happened very often, and then there

05:08 25 would be no way to locate that.

296

BARKLEY
Court Reporters

05:08   1   Q.   Where were employee records stored

05:08   2   at Power when they were in their own personal

05:09   3   possession?

05:09   4   A.   If they were in their own personal

05:09   5   possession, they would be on the laptop, but if

05:09   6   they were shared documents they would be on our --

05:09   7   on our servers.

05:09   8   Q.   If -- Did you use word "system" at

05:09   9   Power?

05:09 10   A.   We used a -- We had a -- We had a

05:09 11   -- We had a shared server for documents that were

05:09 12   appropriate that were in -- in intercompany

05:09 13   discussions.

05:09 14   Q.   Did you search this -- Is this

05:09 15   word "system" still stored anywhere --

05:09 16   A.   I personally, whenever somebody

05:09 17   wanted me to review something, I would get it in my

05:09 18   E mailbox because I just preferred that, so I would

05:09 19   always request that to be sent to my E mail. So

05:09 20   if, there was anything related to Facebook or these

05:09 21   other issues, it would have been in my E mailbox.

05:09 22   Also, because that was my personal practice and

05:09 23   preference if people if they had a document -- I

05:09 24   personally never -- never used that -- the shared

05:09 25   stuff -- shared -- put it on the servers very often

297

05:09 1   and many people -- E mail was the preferred form of

05:10 2   communication in the company.

05:10 3   Q.   And did you -- Again, did you

05:10 4   search any of the word "system" documents to see if

05:10 5   there were any materials --

05:10 6   A.   Every document that I've ever

05:10 7   reviewed that I can -- To the best of my knowledge,

05:10 8   was usually E mailed to me, you know. That was --

05:10 9   because I was not always -- I was moving -- I was

05:10 10   moving between traveling a lot, and in general, the

05:10 11   -- People would E mail it to me, so it would be my

05:10 12   E mailbox and I've searched that entire E mail box.

05:10 13   Q.   How far back does your E mail box

05:10 14   go back?

05:10 15   A.   It goes back to well before Power

05:10 16   was started.

05:10 17   Q.   Was any type of request sent out

05:10 18   to all employees of Power that they maintain

05:10 19   records of everything related to the development of

05:10 20   the Facebook integration?

05:10 21   A.   No.

05:10 22   Q.   So none of the employees were any

05:10 23   inform instructed to maintain their records?
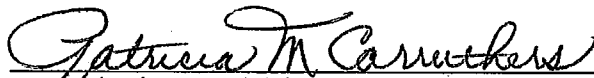

05:11 24   A.   No. They were not.

05:11 25   Q.   So -- what was -- For how much

                              298
